

## WEBINAR: The New Waves ~ BIM, IPD, and Lean PD Wednesday, March 31, 2010; 2:00-3:15pm Eastern

**PRESENTER:** David A. Ericksen, Esq., of *Severson & Werson, PC*

**DESCRIPTION:** BIM, IPD, and Lean PD promise new project results and paradigms. This session will separate the potential from the hyperbole to develop a practice model incorporating principles and tools to strategically assess the appropriate projects, clients, and teams for application of BIM, IPD, and Lean PD as well as the contractual and administrative tools to apply to those situations.

**LEARNING OBJECTIVES:**

- Identify BIM, IPD, and Lean PD respectively as a technology, a process, and a relationship.
- Understand that in this rapidly and constantly evolving arena, the standard of care for design professionals will be defined by scope and process more than work product.
- Identify principles and tools to strategically assess the appropriate projects, clients, and teams for application of BIM, IPD, and Lean PD as well as the contractual and administrative tools to apply to those situations.
- Using the AIA E202 as a benchmark, identify the appropriate procedures and tools for the successful implementation of and containment of BIM, IPD, and Lean PD.

**COST:** **\$85.00** for a single connection, allows an unlimited number of participants in your listening audience. You have the choice to connect at your desk or in a conference room, allowing for multiple participants with a single connection.

**DETAILS:** To participate, you'll need a computer with a high-speed Internet connection. Audio will be streamed via the Internet. In order to hear the audio, you'll need to use a computer that has a soundcard and speakers. For those participants without access to a computer with speakers, a toll-free telephone # to hear the audio will be provided once you log-in to the web platform. Participants will have the opportunity to ask questions of the presenter. Upon receipt of your registration form, a confirmation email will be sent that will include pre-testing instructions to eliminate last-minute technical issues. Two days before the program date, you will receive another email with the connection instructions, including a link for downloading the various program materials in advance.

**REGISTRATION DEADLINE:** Wednesday, March 24<sup>th</sup>

**CONTINUING EDUCATION CREDITS:** After the program, upon receipt of your *Attendance Sign-In Sheet* (one of the program handouts), a group Certificate of Completion will be emailed to you. Architects, Engineers, and other professionals may be able to earn 1.25 continuing education credits for their participation in this program as follows:

**ARCHITECTS:** PLAN is a registered provider with the AIA Continuing Education System (AIA/CES). This 1.25 hour program offers 1.25 LU hours, which will be reported directly to the AIA/CES for AIA members. For individual states' licensing boards, it is the Architect's responsibility to determine whether this activity meets the various guidelines set forth by those state boards where he/she registered.

**ENGINEERS:** Contract Solutions Group (CSG) is a national provider of continuing education to design professionals, and is an approved provider in the 3 states that require pre-approval of providers offering PE credits: **Florida, New York and North Carolina.** Florida engineers must score 70% or greater on a 10-question post-program quiz in order to earn 1.25 PDH credits. For **all other states** with Mandatory Continuing Education Requirements in place, it is the Engineer's responsibility to determine whether this activity meets the requirements set forth by his/her state licensing board. We can advise that most of those states have adopted the following subject matter criteria in awarding credits: "A course or activity whose purpose and objective are clear with a content that will maintain, improve or expand the skills and knowledge of the licensee's field of practice".
